

Please add the following header paragraph after the third paragraph on page 1:

Background of the Invention

Please add the following header paragraph after the first full paragraph on page 4:

Summary of the Invention

Please add the following header paragraph after the third paragraph on page 6:

Brief Description of the Drawings

Please add the following header paragraph after the sixth paragraph on page 6:

Detailed Description

Please replace the paragraph spanning pages 6-7 with the following rewritten paragraph:

In accordance with another aspect of the present invention there are provided isolated polynucleotides encoding a mature polypeptide expressed by the human cDNA contained in ATCC Deposit No. 97334, deposited with the American Type Culture Collection, 10801 University Boulevard, Manassas, VA 20110-2209, USA, on November 6, 1995. The deposited material is a cDNA insert, encoding a polypeptide of the present invention, cloned into a pBluescript SK(-) vector (Stratagene, La Jolla, CA), which will confer ampicillin resistance upon transformation.

In the Claims:

Please cancel claims 2-12 and 24-27 without prejudice or disclaimer.
